

**Charge Questions for  
Advancing the Science & Practice of Cumulative Risk Assessment:  
Alignment of ORD Research & Agency Needs  
July 28-30, 2009, Region 5 Chicago 12<sup>th</sup> Floor Conference Facility**

- What types of stressors and threats should be included or excluded in a CRA?
- What are the criteria for including or excluding a stressor in a particular assessment?
- How might these change with different problem formulation or risk management options?
- How can the Agency insure that the output of a cumulative risk assessment relates back to cumulative risk management goals?
- What new or existing tools might be necessary?
- How does the Agency develop integrated assessments?
